ROUND 3: Threat Assessment while on Patrol

Recall that IEDs (Improvised explosive devices) have had the largest negative impact (casualties) on Canadian soldiers in Afghanistan.

Scenario: You and your group are on patrol in a LAV III (light armoured vehicle) in Kandahar. Four parts of the city must be traveled through. Using the pictures of each neighbourhood, your first task as a LAV crew is to identify the 3 largest potential threats to watch out for in each part of the city. The second portion of your task is to write an Intelligence Summary that determines which area is most likely to be the safest for your crew and why.
